

## TILE & STONE POLISH

### COLOUR ENHANCER FOR MARBLES AND STONES

Dubond's Tile and stone polish is a high quality, water-based, metal cross-linked tile polish for internal use on floors. The polish enriches the appearance of floor finishes by leaving a hard wearing, matt, satin finish, protecting tiles from the formation of stubborn dirt and stain and has good resistance to normal detergents, typical household spillages and general floor cleaners. Ideal for protecting unpolished natural stone, polished granite and dressed terracotta floors

#### Green Building Rating

Mineral  $\geq$  30%

Low Emission

Solvent  $<$  5 g/kg

Low Ecological Impact

Health Care

Water Based

#### Areas of Application

- Internal usage over floorings
- Ideal for usage over unpolished natural stone, polished granite and dressed terracotta floors

#### Features & Benefits :

- High Quality
- Water based
- Metal cross linked product
- Protects tiles from the formation of stubborn dirt and stain  
Good resistance to normal detergents, typical household spillages and general floor cleaners

#### Method of Application :

1. Apply an even, continuous coat to a dry floor using a waxer or other suitable applicator.
2. After about 1 hour, apply a second coat at right-angles to the first.
3. Leave to dry.
4. The floor will be left shining with no need to polish.
